

Office Furniture, Fast.

Howard Packaging came to the **Office Furniture Center** showroom on a Saturday in search of 12 workstations with seating, desks to furnish 4 private offices, vertical & lateral files, and additional ancillary furniture for a breakroom and a library. His company had experienced a pipe burst in their office. The water was over 20" high and had ruined the entire space. Acquiring quality furniture in a tight-timeframe was imperative to recovery efforts and ensuring that business was not lost as a result of unforeseen circumstances.

By the following Monday afternoon, a custom draft of the office and quotes were created by our design specialists and sales team. On Tuesday morning, the quote was signed-off on and installation by our in-house specialists, **MAC Relocations** was arranged. Given the circumstances, our team was able to prioritize and seamlessly execute furnishing an entire office from start-to-finish in just over one-week.

Installation was completed by **MAC Relocations** on the following Monday, allowing business to resume as usual at Howard Packaging.

"One week ago tomorrow I walked into your OFC showroom and was fortunate enough to have your team help me out. I told you my story and that I needed to furnish my office the following week. You said you could do it and you did. Your team has been tremendous to work with."
- Ron Watson, President, Howard Packaging
